

# HARSH AKSHIT

Indiana, US · harshakshit.bit@gmail.com · +1 (930)-904-4151 · <https://www.linkedin.com/in/harshakshit/>  
Cybersecurity professional with strong focus in AI and Application security, vulnerability management, and innovative security solutions. Known for identifying critical risks, and enhancing digital resilience.

## WORK EXPERIENCE

---

### Pillar Security Inc

*AI Security Research Intern*

09/25 - Present

- Actively researching on Large Language Model (LLM) jailbreaks, Prompt Injection techniques, and Model Context Protocol (MCP) vulnerabilities, and other emerging AI threat vectors.
- Facilitating complex technical findings into accessible content by authoring blog posts and articles.
- Assisting in the creation of go-to-market (GTM) assets, such as whitepapers and guides, to understand how research informs product and marketing strategy.

### Indiana University Bloomington

*Teaching Assistant : INFO-I 230 & CSCI-A 541*

Bloomington, IN

01/25 - Present

- Facilitating the practical understanding of foundational cybersecurity concepts for over 60 students by assisting in the delivery of 24+ security concepts, providing technical support, grading assignments, and 15+ lab sessions.

### Synopsys Pvt Ltd

*Security Consultant*

Bangalore, India

06/22 - 06/24

- Protected the personal and financial data of over 2 million consumers by proactively identifying and remediating critical vulnerabilities across 80+ client projects (WebApps & APIs), including major healthcare clients including CVS Healthcare.
- Ensured compliance with industry standards (HIPAA, GDPR, PCI DSS), significantly reducing breach risk and enhancing client trust.
- Contributed to internal documentation utilized by 500+ consultants and conducted 10+ training sessions on cloud and payment gateway security, educating 100+ employees.

## EDUCATION

---

### Indiana University Bloomington

MS Cybersecurity Risk Management *GPA: 3.52/4*

Bloomington, IN

August, 2024 - May, 2026

### Birla Institute of Technology, Mesra

B Tech Computer Science *GPA: 7.44/10*

Ranchi, India

July 2018 - May 2022

## SKILLS, LANGUAGE, TECHNOLOGIES, TOOLS AND PROJECTS

---

Python: Security automations:

AWS Cloud computing: Created CTF challenges for Cloud Village @ DEFCON:

Network Security: Implementing and managing protocols, IPS/IDS, and Firewalls:

Application Security: Burp Suite, OWASP Top 10, SANS Top 25, Web Security, SAST, and SCA:

Data Privacy Compliance: GDPR, HIPAA, PCI DSS:
